

Vaccines

Save Lives

Vaccines are required for pre-school and school enrollment in Illinois. Commonly known as “shots,” these required vaccines protect your child from contagious illnesses including chicken pox, diphtheria, hepatitis, measles, meningitis, mumps, pneumonia, polio, rubella, tetanus, and whooping cough (pertussis).

Additional vaccines for the flu and other illnesses are also available for pre-school and school children and for babies, toddlers and adults over age 18.

Insurance questions?

The East Side Health District accepts Illinois Medicaid and cash/debit payments only. If you are not enrolled in Medicaid and would like to apply, visit www.abe.illinois.gov or call 1-800-843-6154. If you have private health insurance, you can obtain vaccines from your physician or local health care provider.

East Side Health District

The Vaccines Save Lives Initiative is funded by the Illinois Department of Public Health and administered by the Illinois Public Health Association.
